Electronic I-94 Rollout on 30 April 2013

Electronic I-94 Rollout on 30 April 2013 ^[1]

Submitted by Rajiv S. Khanna on Apr 29th 2013

Beginning 30 April 2013, CBP will roll out electronic version of Form I-94, Arrival Departure Record. We recommended that all visitors print out and keep a paper copy of the Form for their records at all times. There are still important legal issues that remain unsettled, including, the proper training and education of DHS/CBP of its own officers. Note that CBP is an agency within Department of Homeland Security (DHS).

Form I-94 is a very important document in that it determines the time and activities permitted during your stay in the USA.

The new I-94 form: <https://i94.cbp.dhs.gov/I94/request.html> ^[2]

DHS explains in this video how to fill out the new I-94 application.

CBP has noted as follows:

U.S. Customs and Border Protection today announced that the automation of Form I-94 Arrival/Departure Record is now effective which will streamline the admissions process for individuals lawfully visiting the United States. Form I-94 provides international visitors evidence they have been lawfully admitted to the U.S. which is necessary to verify alien registration, immigration status, and employment authorization.

Increasing efficiency and streamlining processes is a critical component of maximizing our resources at ports of entry, said Thomas S. Winkowski, acting CBP Commissioner. In addition to saving millions of dollars for both CBP and the travel and tourism industry, automating the I-94 and going paperless will save valuable time for both travelers and CBP officers.

The automation means that affected visitors will no longer need to fill out a paper form when arriving to the U.S. by air or sea, improving procedures and reducing costs. As part of CBP's work to bring advances in technology and automation to the passenger processing environment, records of admission will now be generated using traveler information already transmitted through electronic means.

The change will be implemented at air and sea ports beginning April 30 and will include Charlotte-Douglas International Airport, Orlando International Airport, Las Vegas Airport,

Chicago O Hare,
Miami International Airport and Houston Bush Intercontinental Airport that week, continuing
across the nation through May 21.

Travelers wanting a hard copy or other evidence of admission can access this information
online using the website if they did not receive a hard copy attached to their passport. (Go to
<http://cbp.gov/i94> [4])

Individuals can print a copy of an I-94 based on the electronically submitted data, including
the I-94 number from the form, to provide as necessary to benefits providers or as evidence of
lawful Admission.

U.S. Customs and Border Protection is the unified border agency within the Department of
Homeland Security charged with the management, control and protection of our nation's
borders at and between the official ports of entry. CBP is charged with keeping terrorists and
terrorist weapons out of the country while enforcing hundreds of U.S. laws.
