EB2 - National Interest Waiver

EB2 - National Interest Waiver ^[1]

Submitted by Chief Editor on Jan 1st 2002

We won this case for the applicant utilizing nine strong recommendation letters from sources around the world which included field experts as well as industry. This applicant had fourteen years research experience and was noted as one of the top experts in her field. We noted that the applicant's innovative and pioneering research findings impacted the nation as a whole as not only the U.S. government but the competitive medical research industry was captivated by her work. We showed that this applicant's unique research capabilities were scarce in the United States and other experts found her multidisciplinary skills irreplaceable.
