Medical problems/diseases that can cause issues in green card

Medical problems/diseases that can cause issues in green card ^[1]

Submitted by Chief Editor on Mar 16th 2017

My elder son born in India and now he is 10 years old. We came to the US in 2009. My visa status is H-1B and GC is in progress. My son is a bleeding disorder patient (like hemophilia). The medicine available only in the US. Does my son's medical problem make any issue while applying 485/EAD or at the time of GC issue?
