DS-160 form Signature

DS-160 form Signature [1]

Submitted by Chief Editor on Apr 27th 2011

How do I sign the DS-160 form?

ANSWER:

You electronically sign your DS-160 by clicking the "Sign Application" button at the end of the form. Failure to sign may result in termination of the application. Your electronic signature certifies that you have read and understood the questions in the application and that your answers are true and correct to the best of your knowledge and belief. The submission of an application containing any false or misleading statements may result in the permanent refusal of a visa or denial of entry into the United States. All declarations made in the application are unsworn declarations made under penalty of perjury.

Unless you are exempted from appearing in person, your fingerprints will be electronically scanned on the day of your interview. By providing your fingerprints, you will again certify that that you have answered all questions on the DS-160 truthfully and to the best of your knowledge, and that you will tell the truth during your visa interview. You will be directed to read the following statement prior to having your fingerprints scanned:

"By submitting my fingerprint, I am certifying under penalty of perjury that I have read and understood the questions in my visa application and that all statements that appear in my visa application have been made by me and are true and complete to the best of my knowledge and belief.

Furthermore, I certify under penalty of perjury that I will tell the truth during my interview and that all statements made by me during my interview will be complete to the best of my ability."

Unless the context shows otherwise, all answers here were provided by [Rajiv](#) [2] and were compiled and reported by our editorial team from comments and blog on immigration.com [3]
